Career Experience

Residence Life at Bowling Green State University, Bowling Green, Ohio

ResLife Student Programmer, January 2014 - August 2014

- Enhanced my skills in using PHP, SQL Server and JavaScript
- Collaborated with clients to create web modules for the university
- Responsible for upkeep of the entirety of ResLife modules

Keller Logistics Group, Defiance, Ohio

Development Intern, May 2014 – August 2014

- Had the opportunity to work directly on a development team focusing on web development
- Utilized the WAMP stack to complete projects designated by my team leader to assist on large scale projects within the company
- Took on various solo projects for the logistics department creating software to improve workflow

ITS(Information Technology Services) at Bowling Green State University, Bowling Green, Ohio

Student Programmer, August 2014 – Present

- Applied web frameworks such as Spring and Hibernate to create web modules to apply MVC principles
- Created web modules with Java development (JSP) with Apache Maven and Apache Tomcat
- Worked in partnership with senior programmers to improve on older systems and deploy new modules
